

Mirko Polonijo

Professor, Department of Mathematics,
University of Zagreb
PhD University of Zagreb, 1981

Research interest: Binary and n-ary quasigroups and other algebraic structures, algebraic nets and functional equations, as well as their application in geometry.

Recent publications:

[1] M. Polonijo. *On medial-like identities*, **Quasigroups and Related Systems**, **13** (2005), 281-288.

Selected publications:

[1] M. Polonijo. *On symmetries and parallelogram spaces*, **Stochastica** **9** (1985), 47-55.
